Corruption — the elephant in the room, in the fight ...
The rationale for deeming corruption to be a root cause is the stratified nature in which corruption affects environmental outcomes at both the grand and petty levels. In short, corruption is woven into the fabric of environmental quality and until corruption is removed from the environmental quality process, its harmful effects will remain.

Women in government, environment, and corruption ...
Even though Australia has an admirable anti-corruption record, it is important to consider possible additional measures, including assessing Australia's anti-bribery laws. The Government is therefore examining Australia's anti-bribery legislation, in accordance with Australia's commitment to combating corruption at home and abroad and our international obligations.

Corruption | DFAT
Through the influence of corruption on the allocation of talents: Indirectly, corruption has a negative impact on economic growth through the allocation of talents, since gifted and prospective students are driven, due to the influence of the environment and the situation in the country, for example, to study law rather than engineering, which would add value to the country.

Corruption, Causes and Consequences | IntechOpen
The Environmental Protection Agency and state environmental agencies enforce the environmental regulations that apply to businesses. Although it may be obvious that businesses involved in automotive services, metal work, paints and coatings, agricultural services, and chemical production are subject to environmental regulations, other more innocuous ones, such as dry-cleaners and printers, are ...

Environmental Law: Regulations Every Business Should Know
These anti-corruption policies must comply with the rule of law, and foster integrity, transparency and accountability; Whistle-blowers are also covered under the convention, which states that parties should consider incorporating measures into their domestic legal systems to provide protection against unjustified treatment of persons who report corruption in good faith.
