The Classical Conditioning Quiz! Trivia - ProProfs

Classical conditioning refers to a learning technique in which a biologically potent stimulus is paired with a formerly neutral stimulus. It also describes the learning method that results from this pairing. Pavlov first proposed classical conditioning. Everyone has heard of the experiment of Pavlov's dog. Classical conditioning is a fundamental learning process. With this quiz, you will ...

A dream is a succession of images, ideas, emotions, and sensations that usually occur involuntarily in the mind during certain stages of sleep. Humans spend about two hours dreaming per night, and each dream lasts around 5 to 20 minutes, although the dreamer may perceive the dream as being much longer than this. The content and function of dreams have been topics of scientific, philosophical ...
