The Age of Aging explores a unique phenomenon for mankind and, therefore, one that takes us into uncharted territory. Low birth rates and rising life expectancy are leading to rapid aging and a stagnation or fall in the number of people of working age in Western societies.

The Age of Aging | Wiley Online Books

Directed by Ron Howard. With Steven Austad, Nir Barzilai, Sarah Crane, Laura Deming. In recent years, close study of the aging process has opened up new ways that could help us all live healthier for longer. Can we move beyond treating individual diseases, and instead treat the aging process itself? But would a longer life necessarily be a better life?

"Breakthrough" The Age of Aging (TV Episode 2015) - IMDb

Researchers say the aging process may make people over the age of 60 more vulnerable to COVID-19. Part of the reason may be because the immune system might overreact in older adults when battling ...

How the Aging Process Makes Older People More Vulnerable ...

Aging may be inevitable, but the rate of aging is not. Why and how our bodies age is still largely a mystery, although we are learning more and more each year. Scientists do maintain, however, that chronological age has little bearing on biological age.

What causes aging? | HowStuffWorks

Many parts of the country—especially counties in the rural Midwest—are aging in place because disproportionate shares of young people have moved elsewhere. Positive Developments. Education levels are increasing. Among people ages 65 and older in 1965, only 5 percent had completed a bachelor's degree or more.
